

6 August 2017

Dear Team Leaders and Team Doctors

As you may have heard there have been some cases of acute gastro enteritis in some athletes and staff members in a small number of teams.

In order to ensure the safety of your team and others linked to the event, you are obliged to attend a meeting held by the LOC and IAAF either;

at the Guoman Tower Hotel at the Marathon Athlete Call Room at 17.30hrs or at the TIC in the Stadium at 18.45hrs.

To contain the situation and protect your athletes, we strongly request you comply with the following directions:

1. Report to the Guoman Tower Hotel Medical Room (430) as soon as possible any episode of diarrhoea and vomiting. This report should include the name, category of the person and the room number 2. The person must be isolated and hotel staff will assist in allocating another room. 3. Recommendations from Public Health England say the affected person must remain isolated for 48 hours after the last episode of vomiting or diarrhoea and therefore, the person will need to take their meals in their room.

The Hotel have applied Public Health England's recommendations on enhanced cleaning procedures and will support all measures in relation to these matters.

Individuals must be vigilant on personal hygiene and apply the following:

1. Wash your hands thoroughly after going to the toilet, using soap, hot water and clean towels. 2. Wash your hands before having a meal or a drink.

Yours sincerely

LOC Head of Medical IAAF Medical Delegate
