In the Race Walks, the Penalty Zone rule will be used.

Seedings, Draws and Qualification in Track Events

To accommodate the large number of entries in some events, alternate tables to those provided for in Rule 20.2 of the Technical Rules may be used by the Technical Delegates for seeding, draws and qualifications in Track Events. See Alternate Tables in Appendix 5.

The relays are seeded based on a combination of two factors (each contributing 50% weight):

• Each team’s Qualification Best performance

• Each team’s Qualification Best performances set by the individual athletes entered for the relay team (or for the 100m/400m). An adjusted Qualification Best will be considered in other events (e.g. 110mH, 200m, 400mH) if the athlete does not have one for the 100m/400m.

For the purposes of lane draws in Combined Events races, Rules 20.4.3 – 5 of the Technical Rules apply. The Qualification Best achieved in Heptathlon or a Decathlon is to be used for seeding.

U18 Athletes

Athletes aged 16 or 17 years on 31 December in the year of the competition may compete in any event except the Shot Put. An U18 athlete will only be allowed to compete in a maximum of 3 track events (including relays) of which only 2 can be over 200m (whether an individual event or relay leg).

Athletes Younger than 16

No athlete younger than 16 years of age on 31 December in the year of the competition may be entered or be permitted to compete.

8.2. Participation Principles

General

There shall be an overall total number of 650 athletes participating in the World Athletics Indoor Championships.

Starting from this number, the ideal target number of athletes (and relay teams) to start in each event of the Championships shall be established by World Athletics in consultation with the Technical Delegates and the LOC. These target numbers may or may not include the unqualified athletes (and relay teams) with this being established for each edition as part of the specific Qualification System to be approved by the World Athletics Council in March the year prior to the World Athletics Indoor Championships.

Qualification System

The Qualification System shall be based on the following basic principles:

It shall provide for the participation of qualified athletes (and relay teams) as well as for the participation of unqualified athletes (and relay teams), including from the host country.

It shall provide the start and finish of the qualification / ranking period for each event. The Entry Standards (and relevant criteria for the validity of the performances) shall be
approved and published accordingly (normally in March the year prior to the Championships).

Individual athletes shall qualify based on the achievement of Entry Standards or placing in the World Rankings (or similar specific ranking based on performance or other criteria to be decided by the Council) with the target ratio, and consequently the entry standards, to be established by the World Athletics Council for each specific edition. There shall also be a provision for alternative qualification pathways such as wild cards or direct qualification based on finishing position at designated events, the details of which shall also be confirmed by the Council for each specific edition.

The need for, and the determination of, a qualification system for the Relay teams shall be established by the Council for each specific edition.

Unqualified athletes (or relay teams) shall be allowed to participate based on the following basic criteria:

One unqualified athlete by Member Federation on condition that there is not already a qualified athlete or relay team of the same gender

Entry shall be limited to selected events (and to a maximum number in each event) and subject to certain conditions, to be confirmed by the Council for each edition.

Specific conditions shall apply for the entry of unqualified athletes and relay teams by the host country, to be confirmed by the Council for each edition.

Participation of Neutral Athletes

Athletes who have been granted Neutral Athlete status in accordance with Rule 3 of the Eligibility Rules may apply to World Athletics to participate in the World Athletics Indoor Championships via the Neutral Athlete Liaison person (as described in 8.6 below), by the deadline for Preliminary Entries. Neutral Athletes may only apply to compete in individual events and provided they have qualified through the Entry Standard or World Rankings for the event within the Qualification Period. Neutral Athletes may achieve the Entry Standard in national competitions held in the country of the suspended Member Federation provided the competition in question meets all relevant requirements under World Athletics Rules or Regulations.

8.3. Entry Standards

Approximately twelve months before the World Athletics Indoor Championships, World Athletics shall publish the Entry Standards and relevant criteria.

Neutral Athletes may achieve the Entry Standard in national competitions held in the country of the suspended Member Federation provided the competition in question meets all relevant requirements under World Athletics Rules and Regulations.

8.4. Entry Rules

Members can compete with a up to two athletes in each event with the exception of the Relays on condition that they are all qualified.

One, two or three athletes can initially be entered per event, provided each has qualified.
Unqualified Athletes – Members who have no male and/or no female qualified athletes whom they wish to enter in any Championships event may enter one unqualified male athlete or one unqualified female athlete in one event of the Championships (except the 800m, Field Events and Combined Events).

The Technical Delegates will decide whether or not to accept such entry and, to do so, may seek the opinion of the relevant Area Association.

If the host country of the World Athletics Indoor Championships does not have a qualified athlete in an event, it may enter one athlete in this event regardless of any Entry Standard (except the Combined Events). For the 800m and Field Events see above.

Combined Events – Twelve athletes will be invited by World Athletics in the Heptathlon and in the Pentathlon as follows:

a. the winner of the previous year’s Combined Events Tour

b. the five top ranked athletes from the previous year’s Outdoor Lists (as at 31st December), limited to a maximum of one per country and

c. the five top ranked athletes from the Indoor Lists during the year of the Competition

d. one athlete which may be invited at the discretion of World Athletics

In total no more than two male and two female athletes from any one Member will be invited. Upon refusals or cancellations, the invitations shall, until reasonably practical, be extended to the next ranked athletes in the same lists respecting the above conditions.

Members whose athletes are invited as above will receive additional quota places accordingly.

Relay teams – Every Member may enter one team for each relay race, composed by a maximum of eight athletes. Any four athletes among those entered for the competition, whether for the relay or for any other event, may then be used in the composition of the team for the first round.

8.5. Entries of Neutral Athletes – World Athletics may accept up to two Neutral Athletes from the same sanctioned Member in each event on condition that they are qualified. If more than two Neutral Athletes are qualified, the sanctioned Member will decide which two Neutral Athletes they propose to be entered.

After submission on the On-line Event Entry System World Athletics will confirm the participation of all Neutral Athletes having first verified their qualification status. In confirming the participation of any Neutral Athlete, World Athletics may impose such conditions on their participation as it sees fit, including but not limited to the signature of a Neutral Athlete Agreement.

During the accreditation procedures Members and Neutral Athletes must abide by any direction or ruling by the Advertising Commissioner concerning their uniform to be worn and any sanction imposed for failure to deliver team uniform for approval by the notified deadline. Neutral Athletes may participate in neutral uniform of their choice provided it does not contain any colour(s) of, or otherwise bear any resemblance to, the team uniform and/or flag of the Neutral Athlete's suspended Member / Country or Territory.

9. Financial Conditions

9.1. Athlete Travel & Accommodation Quota

Individual athletes shall qualify based on the achievement of Entry Standards to be established by the World Athletics Council for each specific edition.

The need for, and the determination of, a qualification system for the Relay teams shall be established by the Council for each specific edition.

The Entry Standards must be achieved during the period from 1 October in the year preceding the World Athletics U20 Championships to the closing date for final entries. Such Entry Standards must be achieved in accordance with criteria decided by World Athletics.

Neutral Athletes may achieve the Entry Standard in national competitions held in the country of the suspended Member Federation provided the competition in question meets all relevant requirements under World Athletics Rules and Regulations.
13.5. Entry Rules

Members can compete with up to two athletes in each event with the exception of the Relays on condition they are qualified.

Three athletes can initially be entered per event, provided each has qualified but only two will be permitted to compete.
